PHISIOTHERAPY

AQUA MASSAGE

A water mattress that can be transformed into three different spa beds, a simple connection system, allows the replacement of the water mattress by the Himalayan salt or by Sand, completely transforming it.

Every small movement of the client on the water creates a series of “microwaves” that makes a continuous body massage favoring the venous return and the lymphatic circulation. Its powerful chromo-therapy system makes you feel like you’re “floating” on the color.
